**TRAFFIC SAFETY PROJECTS ANNOUNCED FOR NORTHERN CALIFORNIA**

**\$4.68 million for 49 grant projects announced at state-sponsored summit**

**San Diego** – Maria Contreras-Sweet, Secretary of the State's Business, Transportation and Housing Agency, today announced the start of 49 grant projects – totaling \$4.68 million – for fiscal year 2000 in the Northern California region.

Secretary Contreras-Sweet made the announcement at "Super Summit 2000," the country's largest state-sponsored traffic safety conference, which is being held this week in San Diego by the State Office of Traffic Safety. More than 800 traffic safety professionals and advocates, law enforcement, and community based organization representatives are attending the event.

For the entire state, Secretary Contreras-Sweet announced the official start of 186 projects, totaling \$31 million dollars for traffic safety. The announcement comes on the heels of the Traffic Congestion Relief Plan that was introduced by Governor Gray Davis earlier this month.

"Increasing the safety of California's motorists, passengers and pedestrians is among the Governor's top transportation priorities," said Secretary Contreras-Sweet, the keynote speaker today at the 15th annual Super Summit.

The Office of Traffic Safety – within the Business, Transportation and Housing Agency – administers the California Traffic Safety Program, which is designed to reduce deaths, injuries and property damage that result from traffic accidents. Activities include development of the California Highway Safety Plan; administration of funds to state and local governmental entities in the form of federal grants; and coordinating statewide traffic safety programs and activities.

A list of the region's grant projects and the dollar amounts is attached.
